Composite inception date: 07/01/05 and Composite creation date: 07/01/15. ¹The 3-Year annualized ex-post standard deviation is calculated using monthly gross-of-fee returns to measure the average deviations of returns from its mean. ²Dispersion is not calculated for years in which the composite contains five portfolios or less. Dispersion is calculated as the equal weighted standard deviation of gross-of-fee returns for those portfolios held in the composite during the entire period. Past performance is not indicative of future results.

Fort Washington's Core Fixed Income strategy uses explicit measures of value and risk as a guide to investment decisions. Combined with intensive fundamental research, the portfolio management team believes this provides the best opportunity for excess return. All fee-paying fully discretionary portfolios managed in the Core Fixed Income style, with a minimum of \$5 million under our management, are included in this composite. The Core Fixed Income style requires investors to have the ability to invest in Investment Grade Securities and allow up to 10% allocations in High Yield. Effective 10/22/15, the Core Fixed Income fee is 0.30% for the first \$25 million and 0.25% on additional amounts over \$25 million. The benchmark for this composite is the Bloomberg U.S. Aggregate Bond Index. This benchmark covers the USD-denominated, investment grade, fixed-rate, and taxable areas of the bond market. Portfolios in this composite include cash, cash equivalents, investment securities, interest and dividends. Cash is maintained, within each separately managed account segment, in accordance with our asset allocation ratio. The U.S. dollar is the base currency. The specific securities identified and described do not represent all of the securities purchased, sold, or recommended. Returns are presented gross and net of management fees and include the reinvestment of all income. Gross returns will be reduced by investment advisory fees and other expenses that may be incurred in the management of the account. Net of fee performance was calculated using the actual management fees charged. Individual portfolio returns are calculated on a daily valuation basis. Past performance is not indicative of future results. Fort Washington Investment Advisors, Inc. (Fort Washington), a wholly owned subsidiary of The Western and Southern Life Insurance Company, is a registered investment advisor and provides discretionary money management to a broad range of investors, including both institutional and individual investors. Assets under management include all portfolios managed by Fort Washington and exclude assets managed by and marketed as its Private Equity business unit. RISK DISCLOSURES

The Fort Washington Core Fixed Income strategy invests in fixed-income securities which can experience reduced liquidity during certain market events, lose their value as interest rates rise and are subject to credit risk which is the risk of deterioration in the financial condition of an issuer and/or general economic conditions that can cause the issuer to not make timely payments of principal and interest also causing the securities to decline in value and an investor can lose principal. The strategy invests in mortgage-backed securities and asset-backed securities which are subject to the risks of prepayment, defaults, changing interest rates and at times, the financial condition of the issuer.
