Composite inception date: 01/01/06 and Composite creation date: 01/01/18. ¹The 3-Year annualized ex-post standard deviation is calculated using monthly gross-of-fee returns to measure the average deviations of returns from its mean. ²Dispersion is not calculated for years in which the composite contains five portfolios or less. Dispersion is calculated as the equal weighted standard deviation of quarterly gross-of-fee returns for those portfolios held in the composite during the full measurement period. Past performance is not indicative of future results.

Fort Washington's Intermediate Fixed Income strategy seeks to actively manage portfolios within a disciplined sector rotation and target duration framework, focusing on long-term results, utilizing a mix of fixed income securities. Fort Washington constructs portfolios that are diversified by sector, holdings, and quality which we believe will produce favorable risk-adjusted returns. The Intermediate Fixed Income Composite includes all fixed income accounts above \$5 million managed to the maturity constraints consistent to that of an intermediate duration focused index, with the ability to invest in Investment Grade Securities which allow for between 10%-30% allocations to High Yield and/or are restricted to invest in less than 5% in Emerging Market Securities, Non-U.S. Dollar denominated securities, and/or any derivative investments. Effective 10/22/15, the Intermediate Fixed Income fee is 0.35% for the first \$25 million and 0.30% on additional amounts over \$25 million for separate accounts. The benchmark for this composite is the Bloomberg U.S. Intermediate Aggregate Bond Index. This benchmark covers the USD-denominated, investment grade, fixed-rate, and taxable areas of the bond market. Portfolios in this composite include cash, cash equivalents, investment securities, interest and dividends. Cash is maintained, within each separately managed account segment, in accordance with our asset allocation ratio. The U.S. dollar is the base currency. The specific securities identified and described do not represent all of the securities purchased, sold, or recommended. Returns are presented gross and net of management fees and include the reinvestment of all income. Gross returns will be reduced by investment advisory fees and other expenses that may be incurred in the management of the account. Net of fee performance was calculated using the actual management fees charged. Individual portfolio returns are calculated on a daily valuation basis. Past performance is not indicative of future results. Fort Washington Investment Advisors, Inc. (Fort Washington), a wholly owned subsidiary of The Western and Southern Life Insurance Company, is a registered investment advisor and provides discretionary money management to a broad range of investors, including both institutional and individual investors. Assets under management include all portfolios managed by Fort Washington and exclude assets managed by and marketed as its Private Equity business unit. RISK DISCLOSURES

The Fort Washington Intermediate Fixed Income strategy invests in fixed-income securities which can experience reduced liquidity during certain market events, lose their value as interest rates rise and are subject to credit risk which is the risk of deterioration in the financial condition of an issuer and/or general economic conditions that can cause the issuer to not make timely payments of principal and interest also causing the securities to decline in value and an investor can lose principal. The strategy invests in mortgage-backed securities and asset-backed securities which are subject to the risks of prepayment, defaults, changing interest rates and at times, the financial condition of the issuer.
