(A) Variable rate security - Rate reflected is the rate in effect as of December 31, 2024.

- (B) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description.
- * Non-income producing security.
- ∞ Open-End Fund.
- Ω Represents the 7-Day SEC yield as of December 31, 2024.

Portfolio Abbreviations:

ADR – American Depositary Receipt

DAC - Designated Activity Company

FHLMC – Federal Home Loan Mortgage Corporation

FNMA – Federal National Mortgage Association

LLC - Limited Liability Company

LP – Limited Partnership

MTN – Medium Term Note

PLC – Public Limited Company

REIT – Real Estate Investment Trust

REMIC – Real Estate Mortgage Investment Conduit

TSFR3M – Three Month Term Secured Overnight Financing Rate

144a - This is a restricted security that was sold in a transaction qualifying for the exemption under Rule 144a of the Securities Act of 1933. This security may be sold in transactions exempt from registration, normally to qualified institutional buyers. At December 31, 2024, these securities were valued at \$1,822,217 or 3.7% of net assets. These securities were deemed liquid pursuant to procedures approved by the Board of Trustees.

Other Information:

The inputs or methodology used for valuing securities may not be an indication of the risk associated with investing in those securities. For more information on valuation inputs, and their aggregation into the levels used in the table below, please refer to the security valuation section in the accompanying Notes to Financial Statements.

Futures Contracts

At December 31, 2024, \$36,550 was segregated with the broker as collateral for futures contracts. The Fund had the following futures contracts, brokered by Wells Fargo, open at December 31, 2024:

Description	Expiration Date	Notional Value	Unrealized Appreciation/ Depreciation			
Short Futures:						
30-Year U.S. Ultra Treasury Bond	3/20/2025	6	\$ 713,438	\$	7,857	
Long Futures:						
2-Year U.S. Treasury Note	3/31/2025	18	3,700,969		233	
5-Year U.S. Treasury Note	3/31/2025	28	2,976,531		(36,887)	
				\$	(28,797)	

Centrally Cleared Credit Default Swaps on Credit Indices⁽¹⁾

Counterparty	Termination Date	Notional Amount ⁽²⁾		Clearinghouse	Underlying Bond	Value ⁽³⁾	Premiums Paid/ (Received)	Unrealized Depreciation
Buy Protection:	12/20/20	¢2,020,000	F 0000/	ICE	AA-alife CDV Al-anth- Aa-a-aii a-allifele Vial-d	¢/155.456	¢(140.21¢)	¢(15.1.40)
Wells Fargo	12/20/29	\$2,020,000	5.000%	ICE	Markit CDX North America High Yield Series 43 5Y Index	\$(155,456)	\$(140,316)	\$(15,140)

⁽¹⁾ If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation or underlying investments comprising the referenced index or (ii) receive a net settlement amount in the form of cash or investments equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying investments comprising the referenced index.

⁽²⁾ The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.

⁽³⁾ The quoted market prices and resulting values for credit default swap agreements on the underlying bond serve as an indicator of the current status of the payment/performance risk and represent the likelihood of an expected liability (or profit) for the credit derivative had the notional amount of the swap agreement been closed/sold as of the period end. Decreasing market values (sell protection) or increasing market values (buy protection) when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

⁽¹⁾ Total returns do not include any insurance, sales or administrative charges of variable annuity or life insurance contracts. If these charges were included, the returns would be lower.
(2) Less than \$0.005 per share.
(3) The net investment income (loss) per share was based on average shares outstanding for the period.

Notes to Financial Statements December 31, 2024

1. Organization

The Touchstone Variable Series Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was established as a Massachusetts business trust pursuant to an Agreement and Declaration of Trust dated February 7, 1994. The Trust consists of the following four funds (individually, a "Fund", and collectively, the "Funds"):

Touchstone Balanced Fund ("Balanced Fund")
Touchstone Bond Fund ("Bond Fund")
Touchstone Common Stock Fund ("Common Stock Fund")
Touchstone Small Company Fund ("Small Company Fund")

Each Fund is diversified with the exception of the Common Stock Fund which is non-diversified.

The Agreement and Declaration of Trust permits the Trust to issue an unlimited number of shares of beneficial interest of each Fund. Shares of beneficial interest of each Fund are available as a funding vehicle for the separate accounts of life insurance companies issuing variable annuity and variable life insurance policies. As of December 31, 2024, the following affiliates of Touchstone Advisors, Inc. (the "Adviser") were invested in the Funds: separate accounts of Western-Southern Life Assurance Company, The Western & Southern Life Insurance Company, Integrity Life Insurance Company, National Integrity Life Insurance Company, and Columbus Life Insurance Company, which are all part of Western & Southern Financial Group, Inc. ("Western & Southern"), and certain supplemental executive retirement plans sponsored by Western & Southern and its affiliates.

The Balanced Fund, Bond Fund and Common Stock Fund offer Class SC shares and Class I shares. The Small Company Fund offers Class I shares. The assets of each Fund are segregated, and a shareholder's interest is limited to the Fund in which shares are held. The Funds' prospectus provides a description of each Fund's investment goal, policies, and strategies along with information on the classes of shares currently being offered.

2. Significant Accounting Policies

The following is a summary of the Funds' significant accounting policies:

Each Fund is an investment company that follows the accounting and reporting guidance of Accounting Standards Codification Topic 946 applicable to investment companies.

Security valuation and fair value measurements — U.S. generally accepted accounting principles ("U.S. GAAP") defines fair value as the price the Funds would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. All investments in securities are recorded at their fair value. The Funds define the term "market value", as used throughout this report, as the estimated fair value. The Funds use various methods to measure fair value of their portfolio securities on a recurring basis. U.S. GAAP fair value measurement standards require disclosure of a hierarchy that prioritizes inputs to valuation methods. These inputs are summarized in the three broad levels listed below:

- Level 1 quoted prices in active markets for identical securities
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including a Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The aggregate value by input level, as of December 31, 2024, for each Fund's investments, is included in each Fund's Portfolio of Investments. The Funds did not hold or transfer any Level 3 categorized securities during the year ended December 31, 2024.

Changes in valuation techniques may result in transfers into or out of an investment's assigned level within the hierarchy.

The Funds' portfolio securities are valued as of the close of the regular session of trading on the New York Stock Exchange ("NYSE") (currently 4:00 p.m., Eastern Time or at the time as of which the NYSE establishes official closing prices). Portfolio securities traded on stock exchanges are valued at the last reported sale price, official close price, or last bid price if no sales are reported. Portfolio securities quoted by NASDAQ are valued at the NASDAQ Official Closing Price ("NOCP") or from the primary exchange on which the security trades. To the extent these securities are actively traded, they are categorized in Level 1 of the fair value hierarchy. Options and futures are valued at the last quoted sales price. If there is no such reported sale on the valuation date, long option positions are valued at the most recent bid price, and short option positions are valued at the most recent ask price on the valuation date and are categorized in Level 1. Shares of mutual funds in which the Funds invest are valued at their respective net asset value ("NAV") as reported by the underlying funds and are categorized in Level 1.

Debt securities held by the Funds are valued at their evaluated bid by an independent pricing service or at their last broker-quoted bid prices as obtained from one or more of the major market makers for such securities. Independent pricing services use information provided by market makers or estimates of market values through accepted market modeling conventions. Observable inputs to the models may include prepayment speeds, pricing spread, yield, trade information, dealer quotes, market color, cash flow models, the securities' terms and conditions, among others, and are generally categorized in Level 2. Investments in asset-backed and mortgage-backed securities are valued by independent pricing services using models that consider estimated cash flows of each tranche of the security, establish a benchmark yield and develop an estimated tranche specific spread to the benchmark yield based on the unique attributes of the tranche, and are generally categorized in Level 2. Debt securities with remaining maturities of 60 days or less may be valued at amortized cost, provided such amount approximates market value and are categorized in Level 2. While this method provides consistency in valuation (and may only be used if it approximates market value), it may result in periods during which fair value, as determined by amortized cost, is higher or lower than the price that would be received if the Fund sold the investment.

Securities mainly traded on a non-U.S. exchange or denominated in foreign currencies are generally valued according to the preceding closing values on that exchange, translated to U.S. dollars using currency exchange rates as of the close of regular trading on the NYSE, and are generally categorized in Level 1. However, if an event that may change the value of a security occurs after the time that the closing value on the non-U.S. exchange was determined, but before the close of regular trading on the NYSE, the security may be priced based on fair value and is generally categorized in Level 2. This may cause the value of the security, if held on the books of a Fund, to be different from the closing value on the non-U.S. exchange and may affect the calculation of that Fund's NAV. The Funds may use fair value pricing under the following circumstances, among others:

• If the value of a security has been materially affected by events occurring before the Funds' pricing time but after the close of the primary markets on which the security is traded.

• If the exchange on which a portfolio security is principally traded closes early or if trading in a particular portfolio security was halted during the day and did not resume prior to the Funds' NAV calculation.

• If a security is so thinly traded that reliable market quotations are unavailable due to infrequent trading.

• If the validity of market quotations is not reliable.

Securities held by the Funds that do not have readily available market quotations, significant observable inputs, or securities for which the available market quotations are not reliable, are priced at their estimated fair value using procedures established by the Adviser and adopted by the Funds' Board of Trustees (the "Board") and are generally categorized in Level 3.

Investment companies — The Funds may invest in securities of other investment companies, including exchange-traded funds ("ETFs"), open-end funds and closed-end funds. Open-end funds are investment companies that issue new shares continuously and redeem shares daily. Closed-end funds are investment companies that typically issue a fixed number of shares that trade on a securities exchange or over-the-counter ("OTC"). An ETF is an investment company whose shares are traded on a securities exchange based on their market value. The risks of investment in other investment companies typically reflect the risks of the types of securities in which the other investment companies invest. Investments in ETFs and closed-end funds are subject to the additional risk that their shares may trade at a premium or discount to their NAV. When a Fund invests in another investment company, shareholders of the Fund indirectly bear their proportionate share of the other investment company's fees and expenses, including operating, registration, trustee, licensing, and marketing, as well as their share of the Fund's fees and expenses.

Collateralized Loan Obligations — The Bond Fund may invest in collateralized loan obligations ("CLOs"). CLOs are types of asset-backed securities. A CLO is an entity that is backed by syndicated bank loans. The cash flows of the CLO can be split into multiple segments, called "tranches," which will vary in risk profile and yield. The riskiest segment is the subordinated or "equity" tranche. This tranche bears the greatest risk of defaults from the underlying assets in the CLO and serves to protect the other, more senior, tranches from default in all but the most severe circumstances. Since it is shielded from defaults by the more junior tranches, a "senior" tranche will typically have higher credit ratings and lower yields than their underlying securities, and often receive higher ratings from one or more of the nationally recognized rating agencies. Despite the protection from the more junior tranches, senior tranches can experience substantial losses due to actual defaults, increased sensitivity to future defaults and the disappearance of one or more protecting tranches as a result of changes in the credit profile of the underlying pool of assets.

Futures Contracts — The Balanced Fund and the Bond Fund may buy and sell futures contracts and related options to manage their exposure to changing interest rates and securities prices. Some strategies reduce a Fund's exposure to price fluctuations, while others tend to increase its market exposure. Futures and options on futures can be volatile instruments and involve certain risks that could negatively impact a Fund's return. When a Fund purchases or sells a futures contract, or sells an option thereon, a Fund must deposit initial margin and, in some instances, daily variation margin, to meet its obligations under a contract with a futures commission merchant.

When the contract is closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contract. Risks of entering into futures contracts include the possibility that a

change in the value of the contract may not correlate with the changes in the value of the underlying instruments. Second, it is possible that a lack of liquidity for futures contracts could exist in the secondary market resulting in an inability to close a futures position prior to its maturity date. Third, the purchase of a futures contract involves the risk that the Funds could lose more than the original margin deposit required to initiate the futures transaction. Finally, the risk exists that losses could exceed amounts disclosed on the Statements of Assets and Liabilities. There is minimal counterparty credit risk involved in entering into futures contracts since they are exchange-traded instruments and the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees the futures against default.

As of December 31, 2024, the Balanced Fund did not, whereas the Bond Fund did, hold futures contracts as shown on the Portfolio of Investments.

Swap Contracts — The Balanced Fund and Bond Fund may enter into swap transactions to help enhance the value of their portfolio or manage their exposure to different types of investments. Swaps are financial instruments that typically involve the exchange of cash flows between two parties on specified dates (settlement dates), where the cash flows are based on agreed-upon prices, rates, indexes, etc. The nominal amount on which the cash flows are calculated is called the notional amount. Swaps are individually negotiated and structured to include exposure to a variety of different types of investments or market factors, such as interest rates, foreign currency rates, mortgage securities, corporate borrowing rates, security prices, indexes or inflation rates.

Swap agreements may increase or decrease the overall volatility of the investments of a Fund and its share price. The performance of swap agreements may be affected by a change in the specific interest rate, currency, or other factors that determine the amounts of payments due to and from a Fund. If a swap agreement calls for payments by a Fund, the Fund must be prepared to make such payments when due. In addition, if the counterparty's creditworthiness declines, the value of a swap agreement would be likely to decline, potentially resulting in losses.

Generally, bilateral swap agreements and OTC swaps have a fixed maturity date that will be agreed upon by the parties. The agreement can be terminated before the maturity date only under limited circumstances, such as default by one of the parties or insolvency, among others, and can be transferred by a party only with the prior written consent of the other party. The Fund may be able to eliminate its exposure under a swap agreement either by assignment or by other disposition, or by entering into an offsetting swap agreement with the same party or a similarly creditworthy party. If the counterparty is unable to meet its obligations under the contract, declares bankruptcy, defaults or becomes insolvent, a Fund may not be able to recover the money it expected to receive under the contract.

Cleared swaps are transacted through futures commission merchants that are members of central clearinghouses with the clearinghouses serving as a central counterparty. Pursuant to rules promulgated under the Dodd-Frank Wall Street Reform and Consumer Protection Act, central clearing of swap agreements is currently required for certain market participants trading certain instruments, and central clearing for additional instruments is expected to be implemented by regulators until the majority of the swaps market is ultimately subject to central clearing.

Swaps are marked-to-market daily based upon values received from third party vendors or quotations from market makers. For OTC swaps, any upfront premiums paid or received are recorded as assets or liabilities, respectively, and are shown as premium paid on swap agreements or premium received on swap agreements in the Statements of Assets and Liabilities. For swaps that are centrally cleared, initial margins, determined by each relevant clearing agency or clearing member, are posted at a clearing broker in accordance with CFTC or the applicable regulator's regulations. The change in value of swaps, including accruals of periodic amounts of interest to be paid or received on swaps, is recorded as unrealized appreciation or depreciation. Daily changes in the value of centrally cleared swaps are recorded in the Statements of Assets and Liabilities as receivable or payable for variation margin on swap agreements and settled daily. Upfront premiums and liquidation payments received or paid are recorded as realized gains or losses at the termination or maturity of the swap. Net periodic payments received or paid by the Fund are recorded as realized gain or loss.

A swap agreement can be a form of leverage, which can magnify a Fund's gains or losses. In order to reduce the risk associated with leveraging, the Fund will only enter into a swap agreement subject to the regulatory limitations set forth in Rule 18f-4 under the 1940 Act (the "Derivatives Rule").

As of December 31, 2024, the Bond Fund held swap agreements as shown on the Portfolio of Investments.

Foreign currency translation — The books and records of the Funds are maintained in U.S. dollars and translated into U.S. dollars on the following basis:

- (1) market value of investment securities, assets and liabilities at the current rate of exchange on the valuation date; and
- (2) purchases and sales of investment securities, income, and expenses at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Funds do not isolate that portion of gains and losses on investments in equity securities that is due to changes in the foreign exchange rates from that which is due to changes in market prices of equity securities.

Real Estate Investment Trusts — The Funds may invest in real estate investment trusts ("REITs") that involve risks not associated with investing in stocks. Risks associated with investments in REITs include declines in the value of real estate, general and economic conditions, changes in the value of the underlying property and defaults by borrowers. The value of assets in the real estate industry may go through cycles of relative underperformance and outperformance in comparison to equity securities markets in general. Dividend income is recorded using management's estimate of the income included in distributions received from REIT investments. The actual amounts of income, return of capital and capital gains are only determined by each REIT after its fiscal year-end and may differ from the estimated amount. Estimates of income are adjusted in the Funds to the actual amounts when the amounts are determined.

Derivative instruments and hedging activities — The Balanced Fund and Bond Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement ("ISDA Master Agreement" or "MNA") or similar agreement with certain counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs OTC derivatives and foreign exchange contracts, and typically contains, among other things, collateral posting terms and master netting provisions in the event of a default or termination. Under an ISDA Master Agreement, a party may, under certain circumstances, offset with the counterparty certain derivative financial instruments' payables or receivables with collateral held or posted and create one single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of default (close-out netting). These default events include bankruptcy or insolvency of the counterparty. Note, however, that bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against the right of offset.

When entering into a derivative transaction, a Fund may be required to post and maintain collateral or margin (including both initial and variation margin). Collateral and margin requirements differ by type of derivative. Margin requirements are established by the broker or clearing house for exchange-traded and centrally cleared derivatives (financial futures contracts, options, and centrally cleared swaps). Brokers can ask for margining in excess of the clearing house's minimum in certain circumstances. Collateral terms are contract specific for OTC derivatives (forward foreign currency contracts, options, and swaps). For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the marked-to-market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by the Fund and the counterparty. For financial reporting purposes, cash collateral that has been pledged to cover obligations of the Fund and cash collateral received from the counterparty, if any, are reported separately on the Statements of Assets and Liabilities as cash deposits held at prime broker and due to prime broker, respectively. Non-cash collateral pledged by the Fund, if any, is noted in the Portfolio of Investments. To the extent amounts due to the Fund from its counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from counterparty non-performance.

Certain ISDA Master Agreements allow counterparties to OTC derivatives transactions to terminate derivative contracts prior to maturity in the event a Fund's net assets decline by a stated percentage or the Fund fails to meet the terms of its ISDA Master Agreement, which would cause the Fund (counterparty) to accelerate payment of any net liability owed to the counterparty (Fund).

For financial reporting purposes, the Funds do not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statements of Assets and Liabilities.

As of December 31, 2024, the Funds did not hold any assets and liabilities that were subject to a MNA.

The following table sets forth the fair value of the Bond Fund's derivative financial instruments by primary risk exposure as of December 31, 2024:

	Derivatives not accounted for as hedging	Asset	Liability
Fund	instruments under ASC 815	Derivatives	Derivatives
Bond Fund	Swap Agreements - Credit Contracts*	\$ —	\$15,140
	Futures Contracts - Interest Rate Contracts**	8,090	36,887

^{*} Statements of Assets and Liabilities Location: Payable for variation margin on swap agreements. Variation margin reported in the Portfolio of Investments and other tables in the Notes to the Financial Statements is the cumulative unrealized appreciation (depreciation).

^{**} Statements of Assets and Liabilities Location: Payable for variation margin on futures contracts. Only current day's variation margin is reported within the payable/receivable on the Statement of Assets and Liabilities. Includes cumulative appreciation/(depreciation) on futures contracts as reported on the Portfolio of Investments and within the components of net assets section of the Statement of Assets and Liabilities.

The following table sets forth the effect of the Bond Fund's derivative financial instruments by primary risk exposure on the Statements of Operations for the year ended December 31, 2024:

		Dealine d Caine	Change in Unrealized
Fund	Derivatives not accounted for as hedging instruments under ASC 815	Realized Gains (Losses) on Derivatives	Appreciation (Depreciation) on Derivatives
Bond Fund	Futures - Interest Rate Contracts* Swap Agreements - Credit Contracts**	\$(186,231) (285,359)	\$167,908 122,985

^{*} Statements of Operations Location: Net realized losses on futures contracts and Net change in unrealized appreciation (depreciation) on futures contracts, respectively.

For the year ended December 31, 2024, the average quarterly notional value of outstanding derivative financial instruments for the Bond Fund was as follows:

	Bond Fund
Credit Contracts:	
Credit Default Swaps (buy protection) - Notional value	\$2,205,620
Interest Rate Contracts:	
Futures Contracts (long) - Notional Value	9,637,841
Futures Contracts (short) - Notional Value	1,648,706

Portfolio securities loaned — The Funds may lend their portfolio securities. Lending portfolio securities exposes the Funds to the risk that the borrower may fail to return the loaned securities or may not be able to provide additional collateral or that the Funds may experience delays in recovery of the loaned securities or loss of rights in the collateral if the borrower fails financially. To minimize these risks, the borrower must agree to maintain cash collateral with the Funds' custodian. The loaned securities are secured by collateral valued at least equal, at all times, to the market value of the loaned securities plus accrued interest, if any. When the collateral falls below specified amounts, the lending agent will use its best effort to obtain additional collateral on the next business day to meet required amounts under the security lending agreement. The cash collateral is reinvested by the Funds' custodian into an approved short-term investment vehicle. The approved short-term investment vehicle is subject to market risk.

As of December 31, 2024, the following Fund loaned securities and received collateral as follows:

		Market Value of	Market Value of	Net
Fund	Security Type	Securities Loaned*	Collateral Received**	Amount***
Small Company Fund	Common Stocks	\$651,568	\$655,306	\$3,738

^{*} The remaining contractual maturity is overnight for all securities.

All cash collateral is received, held, and administered by the Funds' custodian for the benefit of the lending Fund in its custody account or other account established for the purpose of holding collateral in cash equivalents.

Funds participating in securities lending receive compensation in the form of fees. Securities lending income is derived from lending long securities from the Funds to creditworthy approved borrowers at rates that are determined based on daily trading volumes, float, short-term interest rates and market liquidity and is shown net of fees on the Statements of Operations. When a Fund lends securities, it retains the interest or dividends on the investment of any cash received as collateral, and the Fund continues to receive interest or dividends on the loaned securities.

Unrealized gain or loss on the market value of the loaned securities that may occur during the term of the loan is recognized by the Fund. The Fund has the right under the lending agreement to recover any loaned securities from the borrower on demand.

When-issued or delayed delivery transactions — Each Fund may purchase or sell securities on a when-issued or delayed delivery basis. These transactions involve a commitment by the Fund to purchase or sell securities for a predetermined price or yield, with payment and delivery taking place beyond the customary settlement period. When purchasing a security on a delayed delivery basis, the Fund assumes the rights and risks of ownership of the security, including the risk of price and yield fluctuations, and takes such fluctuations into account when determining NAV. The Fund may dispose of or renegotiate a delayed delivery transaction after it is entered into, and may sell when-issued securities before they are delivered, which may result in a capital gain or loss. When the Fund has sold a security on a delayed delivery basis, the Fund does not participate in future gains and losses with respect to the security.

^{**} Statements of Operations Location: Net realized losses on swap agreements and Net change in unrealized appreciation (depreciation) on swap agreements, respectively.

^{**} Gross amount of recognized liabilities for securities lending included in the Statements of Assets and Liabilities.

^{***} Net amount represents the net amount payable due to (received from) the borrower in the event of default.

When-issued or delayed delivery transactions physically settling within 35-days are deemed not to involve a senior security. When-issued or delayed delivery transactions that do not physically settle within 35-days are required to be treated as derivatives transactions in compliance with the Derivatives Rule.

Share valuation — The NAV per share of each class of shares of each Fund is calculated daily by dividing the total value of a Fund's assets attributable to that class, less liabilities attributable to that class, by the number of outstanding shares of that class.

Investment income — Dividend income from securities is recognized on the ex-dividend date, net of foreign withholding taxes, if any, which are reduced by any amounts reclaimable by the Funds, where applicable. Interest income from securities is recorded on the basis of interest accrued, premium amortized and discount accreted. Realized gains and losses resulting from principal pay downs on mortgage-backed and asset-backed securities are included in interest income. Market discounts, original issue discounts and market premiums on debt securities are accreted/amortized to interest income over the life of the security, or to the appropriate call date, as applicable, with a corresponding adjustment in the cost basis of that security. In addition, it is the Funds' policy to accrue for foreign capital gains taxes, if applicable, on certain foreign securities held by the Funds. An estimated foreign capital gains tax is recorded daily on net unrealized gains on these securities and is payable upon the sale of such securities when a gain is realized.

Distributions to shareholders — Each Fund intends to distribute to its shareholders substantially all of its income and capital gains. Each Fund declares and distributes net investment income, if any, annually, as a dividend to shareholders. Each Fund makes distributions of capital gains, if any, at least annually, net of applicable capital loss carryforwards. Income distributions and capital gain distributions are determined in accordance with income tax regulations. Recognition of the Funds' net investment income from investments in underlying funds is affected by the timing of dividend declarations by the underlying funds.

Allocations — Investment income earned, realized capital gains and losses, and unrealized appreciation and depreciation for a Fund are allocated daily to each class of shares based upon its proportionate share of total net assets of the Fund. Class-specific expenses are charged directly to the class incurring the expense. Common expenses, which are not attributable to a specific class, are allocated daily to each class of shares based upon their proportionate share of total net assets of the Fund. Expenses not directly billed to a Fund are allocated proportionally among all Funds in the Trust, and, if applicable, Touchstone ETF Trust, Touchstone Strategic Trust and Touchstone Funds Group Trust (collectively with the Trust, "Touchstone Fund Complex"), daily in relation to net assets of each Fund or another reasonable measure.

Security transactions — Security transactions are reflected for financial reporting purposes as of the trade date. Realized gains and losses on sales of portfolio securities are calculated using the identified cost basis.

Estimates — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Operating Segments — In this reporting period, the Funds adopted FASB Accounting Standards Update 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures ("ASU 2023-07"). Adoption of the new standard impacted financial statement disclosures only and did not affect the Funds' financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. Each Fund represents a single operating segment. The management team of the Adviser, acts as the Funds' CODM. The CODM monitors the operating results of the Funds as a whole and also monitors each Fund's asset allocation for adherence to its principal investment strategies as disclosed in its prospectus. The financial information, including the Funds' portfolio of investments, total returns, expense ratios and changes in net assets, are used by the CODM to assess the segment's performance versus the Funds' benchmarks and to make resource allocation decisions for the Funds' single segment and is consistent with that presented within the Funds' financial statements. Segment assets are reflected on the accompanying statements of operations. The accounting policies of the segment are the same as those described in the summary of significant accounting policies.

3. Investment Transactions

Investment transactions (excluding short-term investments and U.S. Government securities) were as follows for the year ended December 31, 2024:

	Balanced Fund	Bond Fund	Common Stock Fund	Small Company Fund
Purchases of investment securities	\$ 6,711,646	\$ 9,075,177	\$18,509,716	\$38,094,775
Proceeds from sales and maturities	\$14,548,709	\$13,165,797	\$61,198,357	\$45,204,905

For the year ended December 31, 2024, purchases and proceeds from sales and maturities in U.S. Government Securities were \$33,720,590 and \$32,994,735, respectively, for the Balanced Fund, and \$80,101,859 and \$80,627,939, respectively, for the Bond Fund. There were no purchases or proceeds from sales and maturities of U.S. Government securities by the other Funds for the year ended December 31, 2024.

4. Transactions with Affiliates and Other Related Parties

Certain officers of the Trust are also officers of the Adviser, Touchstone Securities, Inc. (the "Distributor"), or The Bank of New York Mellon ("BNY Mellon"), the sub-administrator to the Funds. Such officers receive no compensation from the Trust. The Adviser and the Distributor are each wholly-owned subsidiaries of Western & Southern.

On behalf of the Funds, the Adviser pays each Independent Trustee a quarterly retainer plus additional retainers to the Lead Independent Trustee and the chairs of each standing committee. Interested Trustees do not receive compensation from the Funds. Each Independent Trustee also receives compensation for each Board meeting and committee meeting attended. Each standing committee chair receives additional compensation for each committee meeting that he or she oversees. The Adviser is reimbursed by the Funds for the Independent Trustees' compensation and out-of-pocket expenses relating to their services. The Funds accrued Trustee-related expenses of \$136,492 for the Funds' Board for the year ended December 31, 2024.

MANAGEMENT & EXPENSE LIMITATION AGREEMENTS

The Adviser provides general investment supervisory services for the Funds, under the terms of an advisory agreement (the "Advisory Agreement"). Under the Advisory Agreement, each Fund pays the Adviser a fee, which is computed and accrued daily and paid monthly, at an annual rate based on average daily net assets of each Fund as shown in the table below.

Balanced Fund	0.55% on all assets
Bond Fund	0.38% on the first \$200 million
	0.30% on such assets over \$200 million
Common Stock Fund	0.50% on the first \$200 million
Small Company Fund	0.45% on the next \$300 million
	0.40% on such assets over \$500 million

The Adviser has entered into investment sub-advisory agreements with Fort Washington Investment Advisors, Inc. (the "Sub-Adviser"), an affiliate of the Adviser and wholly-owned subsidiary of Western & Southern. The Adviser pays sub-advisory fees to the Sub-Adviser from its advisory fee.

The Adviser entered into an expense limitation agreement (the "Expense Limitation Agreement") to contractually limit the annual operating expenses of the Funds, excluding: dividend and interest expenses relating to short sales; interest; taxes; brokerage commissions and other transaction costs; portfolio transaction and investment related expenses, including expenses associated with the Funds' liquidity providers; other expenditures which are capitalized in accordance with U.S. GAAP; the cost of "Acquired Fund Fees and Expenses", if any; and other extraordinary expenses not incurred in the ordinary course of business. The maximum annual operating expense limit in any year with respect to the Funds is based on a percentage of the average daily net assets of the Funds. The Adviser has agreed to waive a portion of its fees, and to reimburse certain fund expenses in order to maintain the following expense limitations for the Funds:

	Class SC	Class I	Termination Date
Balanced Fund	0.79%	0.79%	April 29, 2025
Bond Fund	0.91%	0.61%	April 29, 2025
Common Stock Fund	1.06%	0.73%	April 29, 2025
Small Company Fund	_	0.76%	April 29, 2025

The Expense Limitation Agreement can be terminated, with respect to each Fund, by a vote of the Funds' Board if it deems the termination to be beneficial to the Funds' shareholders.

During the year ended December 31, 2024, the Adviser or its affiliates waived investment advisory fees, administration fees or shareholder servicing fees and other operating expenses of the Funds as follows:

	Investment		Shareholder Servicing Fees and Operating Expenses		
	Advisory	Administration	Reimbursed/		
Fund	Fees Waived	Fees Waived	Waived	Total	
Balanced Fund	\$—	\$68,238	\$134,387	\$202,625	
Bond Fund	_	41,696	72,807	114,503	
Common Stock Fund	_	_	73,694	73,694	
Small Company Fund	_	9,563	47,170	56,733	

Under the terms of the Expense Limitation Agreement, the Adviser is entitled to recover, subject to approval by the Funds' Board, such amounts waived or reimbursed for a period of up to three years from the date on which the Adviser reduced its compensation or assumed expenses for the Funds. A Fund will make repayments to the Adviser only if such repayment does not cause the Fund's operating expenses (after the repayment is taken into account) to exceed the Fund's expense limit in place when such amounts were waived or reimbursed by the Adviser and the Fund's current expense limitation.

As of December 31, 2024, the Adviser may seek recoupment of previously waived fees and reimbursed expenses as follows:

	Expires on or before December 31,	Expires on or before December 31,	Expires on or before December 31,	
Fund	2025	2026	2027	Total
Balanced Fund	\$224,509	\$199,661	\$202,625	\$626,795
Bond Fund	30,703	83,506	114,503	228,712
Common Stock Fund	58,693	82,999	73,694	215,386
Small Company Fund	25,756	54,619	56,733	137,108

The Adviser did not recoup any amounts it previously waived or reimbursed during the year ended December 31, 2024.

ADMINISTRATION AGREEMENT

The Adviser entered into an Administration Agreement with the Trust, whereby the Adviser is responsible for: supplying executive and regulatory compliance services; supervising the preparation of tax returns; coordinating the preparation of reports to shareholders and reports to and filings with the Securities and Exchange Commission ("SEC") and state securities authorities, as well as materials for meetings of the Board; calculating the daily NAV per share; and maintaining the financial books and records of each Fund.

For its services, the Adviser's annual administrative fee is:

- 0.145% on the first \$20 billion of the aggregate average daily net assets;
- 0.11% on the next \$10 billion of aggregate average daily net assets;
- 0.09% on the next \$10 billion of aggregate average daily net assets; and
- 0.07% on the aggregate average daily net assets over \$40 billion.

The fee is computed and allocated among the Touchstone Fund Complex on the basis of relative daily net assets.

The Adviser has engaged BNY Mellon as the sub-administrator to the Trust. BNY Mellon provides administrative and accounting services to the Trust and is compensated directly by the Adviser, not the Trust.

TRANSFER AGENT AGREEMENT

Under the terms of the Transfer Agent Agreement between the Trust and BNY Mellon Investment Servicing (U.S.) Inc. ("Transfer Agent"), the Transfer Agent to the Funds maintains the records of each shareholder's account, answers shareholders' inquiries concerning their accounts, processes purchases and redemptions of each Fund's shares, acts as dividend and distribution disbursing

agent, and performs other shareholder service functions. For these services, the Transfer Agent receives a monthly fee from each Fund. In addition, each Fund pays out-of-pocket expenses incurred by the Transfer Agent, including, but not limited to, postage and supplies.

The Funds may reimburse the Adviser for fees paid to intermediaries such as banks, broker-dealers, financial advisers or other financial institutions for sub-transfer agency, sub-administration and other services provided to investors whose shares of record are held in omnibus, other group accounts, retirement plans or accounts traded through registered securities clearing agents. These fees, which are included in Transfer Agent fees in the Statements of Operations, may vary based on, for example, the nature of services provided, but generally range up to 0.15% of the assets of the class serviced or maintained by the intermediary or up to \$22 per sub-account maintained by the intermediary.

PLANS OF DISTRIBUTION

The Trust has adopted a Shareholder Services Plan under which Class SC shares of each Fund may directly or indirectly bear expenses for shareholder services provided. Each Fund offering Class SC shares will incur or reimburse expenses for shareholder services at an annual rate not to exceed 0.25% of the average daily net assets.

DISTRIBUTION AGREEMENT

The Distributor acts as exclusive agent for the distribution of the Funds' shares. The Distributor receives no compensation under this agreement.

INTERFUND TRANSACTIONS

Pursuant to Rule 17a-7 under the 1940 Act, the Funds may engage in purchase and sale transactions with funds that have a common investment adviser (or affiliated investment advisers), common Trustees and/or common Officers. During the year ended December 31, 2024, the Funds did not engage in any Rule 17a-7 transactions.

5. Liquidity

Interfund Lending — Pursuant to an Exemptive Order issued by the SEC on March 28, 2017, the Funds, along with certain other funds in the Touchstone Fund Complex, may participate in an interfund lending program. The interfund lending program provides an alternate credit facility that allows the Funds to lend to or borrow from other participating funds in the Touchstone Fund Complex, subject to the conditions of the Exemptive Order. The Funds may not borrow under the facility for leverage purposes and the loans' duration may be no more than 7 days.

During the year ended December 31, 2024, the Funds did not utilize Interfund Lending.

6. Federal Tax Information

Federal Income Tax — It is each Fund's policy to continue to comply with the special provisions of the Internal Revenue Code applicable to regulated investment companies. As provided therein, in any fiscal year in which a Fund so qualifies and distributes at least 90% of its investment company taxable income, the Fund (but not the shareholders) will be relieved of federal income tax on the income distributed. It is each Fund's policy to distribute all of its taxable income and accordingly, no provision for income taxes has been made.

In order to avoid imposition of the excise tax applicable to regulated investment companies, it is also each Fund's intention to declare and pay as dividends in each calendar year at least 98% of its investment company taxable income (earned during the calendar year) and 98.2% of its net realized capital gains (earned during the twelve months ending October 31) plus undistributed amounts from prior years.

The tax character of distributions paid for the years ended December 31, 2024 and December 31, 2023 were as follows:

	Balanced Fund		Bond Fund	
	Year Ended December 31, 2024	Year Ended December 31, 2023	Year Ended December 31, 2024	Year Ended December 31, 2023
From ordinary income	\$877,103	\$638,213	\$2,487,186	\$2,466,152
From long-term capital gains	_	_		-
Total distributions	\$877,103	\$638,213	\$2,487,186	\$2,466,152

	Common Stock Fund		Small Company Fund	
	Year Ended December 31, 2024	Year Ended December 31, 2023	Year Ended December 31, 2024	Year Ended December 31, 2023
From ordinary income	\$ 1,131,184	\$ 1,010,060	\$ 268,968	\$132,693
From long-term capital gains	14,224,748	12,709,879	2,137,299	272,394
Total distributions	\$15,355,932	\$13,719,939	\$2,406,267	\$405,087

The following information is computed on a tax basis for each item as of December 31, 2024:

	Balanced Fund	Bond Fund	Common Stock Fund	Small Company Fund
Tax cost of portfolio investments	\$36,916,556	\$ 49,778,353	\$ 90,002,883	\$46,215,621
Gross unrealized appreciation on investments Gross unrealized depreciation on investments	13,819,064 (1,589,383)	199,530 (3,192,846)	118,783,296 (2,073,872)	20,490,570 (1,976,653)
Net unrealized appreciation (depreciation) on investments Gross unrealized depreciation on foreign currency transactions	12,229,681 —	(2,993,316) —	116,709,424 (96)	18,513,917 (13)
Net unrealized appreciation (depreciation) on foreign currency transactions	_	_	(96)	(13)
Capital loss carryforwards	_	(13,044,612)	_	_
Undistributed ordinary income	827,149	1,903,575	935,257	1,769,875
Undistributed capital gains	1,240,556	_	28,480,848	6,274,917
Other temporary differences	_	(11,147)	_	
Accumulated earnings (deficit)	\$14,297,386	\$(14,145,500)	\$146,125,433	\$26,558,696

The difference between the tax cost of portfolio investments and the financial statement cost is primarily due to wash sale loss deferrals, investments in passive foreign investment company ("PFIC") adjustments, regulated investment company adjustments, taxable interest on defaulted securities, amortization adjustments on bonds and certain timing differences in the recognition of capital losses under income tax regulations and U.S. GAAP.

As of December 31, 2024, the Funds had the following capital loss carryforwards for federal income tax purposes:

	No Expiration	No Expiration		
Fund	Short Term	Long Term	Total	
Bond Fund	\$2,338,955	\$10,705,657	\$13.044.612	

The capital loss carryforwards may be utilized in future years to offset net realized capital gains, if any, prior to distributing such gains to shareholders.

During the year ended December 31, 2024, the following Fund utilized capital loss carryforwards:

Fund	Utilized
Balanced Fund	\$983,291

The Funds recognize tax benefits or expenses of uncertain tax positions only when the position is more likely than not to be sustained assuming examination by tax authorities. Management of the Funds has reviewed tax positions taken in tax years that remain subject to examination by all major tax jurisdictions, including federal (i.e., the previous three tax year ends and the interim tax period since then, as applicable) and has concluded that no provision for unrecognized tax benefits or expenses is required in these financial statements and does not expect this to change over the next twelve months. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits in the Statements of Operations. During the period, the Funds did not incur any interest or penalties.

Certain reclassifications, the result of permanent differences between financial statement and income tax reporting requirements, have been made to the components of capital as presented on the Statements of Assets and Liabilities. These reclassifications have no impact on the net assets or NAV per share of the Funds. The following reclassifications, which are primarily attributed to various temporary book/tax differences, have been made to the following Fund for the year ended December 31, 2024:

	Paid-In	Distributable
Fund	Capital	Earnings
Bond Fund	\$1	\$(1)

7. Commitments and Contingencies

The Funds indemnify the Trust's officers and Trustees for certain liabilities that might arise from their performance of their duties to the Funds. Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds.

8. Principal Risks

Risks Associated with Foreign Investments – Certain Funds may invest in the securities of foreign issuers. Investing in securities issued by companies whose principal business activities are outside the U.S. may involve significant risks not present in domestic investments. For example, there is generally less publicly available information about foreign companies, particularly those not subject to the disclosure and reporting requirements of the U.S. securities laws. Foreign issuers are generally not bound by uniform accounting, auditing, and financial reporting requirements and standards of practice comparable to those applicable to domestic issuers. Investments in foreign securities also involve the risk of possible adverse changes in investment or exchange control regulations, expropriation or confiscatory taxation, limitations on the removal of funds or other assets of a Fund, political or financial instability or diplomatic and other developments which could affect such investments. Political and military events, may cause market disruptions. Foreign stock markets, while growing in volume and sophistication, are generally not as developed as those in the U.S., and securities of some foreign issuers (particularly those located in developing countries) may be less liquid and more volatile than securities of comparable U.S. companies. In general, there is less overall governmental supervision and regulation of foreign securities markets, broker-dealers, and issuers than in the U.S.

Risks Associated with Sector Concentration – Certain Funds may invest a high percentage of their assets in specific sectors of the market in order to achieve a potentially greater investment return. As a result, these Funds may be more susceptible to economic, political, and regulatory developments, positive or negative, in a particular sector of the market and may experience increased volatility in the Funds' NAVs and magnified effect on the total return.

Risks Associated with Credit – An issuer may be unable to make timely payments of either principal or interest. This may cause the issuer's securities to decline in value. Credit risk is particularly relevant to those Funds that invest a significant amount of their assets in junk bonds or lower-rated securities.

Risks Associated with Cybersecurity – With the increased use of technologies, such as mobile devices and "cloud"-based service offerings and the dependence on the Internet and computer systems to perform necessary business functions, the Funds' service providers are susceptible to Cybersecurity risks that could result in losses to a Fund and its shareholders. Cybersecurity breaches are either intentional or unintentional events that allow an unauthorized party to gain access to Fund assets, customer data, or proprietary information, or cause a Fund or Fund service provider to suffer data corruption or lose operational functionality. A Cybersecurity breach could result in the loss or theft of customer data or funds, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs, any of which could have a substantial impact on a Fund. Cybersecurity incidents could cause a Fund, the Adviser, a Sub-Adviser, or other service provider to incur regulatory penalties, reputational damage, compliance costs associated with corrective measures, litigation costs, or financial loss. They may also result in violations of applicable privacy and other laws. In addition, such incidents could affect issuers in which a Fund invests, thereby causing the Fund's investments to lose value.

Risks Associated with Interest Rate Changes – In general, when interest rates rise, the prices of debt securities fall, and when interest rates fall, the prices of debt securities rise. The price volatility of a debt security also depends on its maturity. Longer-term securities are generally more volatile, so the longer the average maturity or duration of these securities, the greater their price risk. Duration is a measure used to determine the sensitivity of a security's price to changes in interest rates that incorporates a security's yield, coupon, final maturity, and call features, among other characteristics. The longer a fixed-income security duration, the more sensitive it will be to changes in interest rates. Maturity, on the other hand, is the date on which a fixed-income security becomes due for payment of principal. Recent and potential future changes in government policy may affect interest rates.

Risks Associated with Health Crises – A widespread health crisis such as a global pandemic could cause substantial market volatility, exchange trading suspensions and closures, which may lead to less liquidity in certain instruments, industries, sectors or the markets generally, and may ultimately affect Fund performance. For example, the COVID-19 pandemic has resulted and may continue to result in significant disruptions to global business activity and market volatility due to disruptions in market access, resource availability, facilities, operations, imposition of tariffs, export controls and supply chain disruption, among others. The impact of a health crisis and other epidemics and pandemics that may arise in the future, could affect the global economy in ways that cannot necessarily be foreseen at the present time. A health crisis may exacerbate other pre-existing political, social and economic risks. Any such impact could adversely affect a Fund's performance, resulting in losses to your investment.

Please see the Funds' prospectus and statement of additional information for a complete discussion of these and other risks.

9. Subsequent Events

Subsequent events occurring after the date of this report have been evaluated for potential impact to this report through the date the financial statements were issued. There were no subsequent events that necessitated recognition or disclosure in the Funds' financial statements.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Trustees of Touchstone Variable Series Trust

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of Touchstone Variable Series Trust (the "Trust") (comprising the Touchstone Balanced Fund, Touchstone Bond Fund, Touchstone Common Stock Fund and Touchstone Small Company Fund (collectively referred to as the "Funds")), including the portfolios of investments, as of December 31, 2024, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds comprising Touchstone Variable Series Trust at December 31, 2024, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended and their financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2024, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more Touchstone Investments' investment companies since 1999.

Cincinnati, Ohio February 14, 2025

Qualified Dividend Income

Under the Jobs and Growth Tax Relief Reconciliation Act of 2003 (the "Act"), the following percentages of ordinary dividends paid during the fiscal year ended December 31, 2024 are designated as "qualified dividend income," as defined in the Act, and are subject to reduced tax rates. The Funds intend to pass through the maximum allowable percentage for Form 1099 Div.

For the fiscal year ended December 31, 2024, the Funds designated long-term capital gains as follows:

Balanced Fund \$ 1,240,556 Common Stock Fund \$ 28,480,949 Small Company Fund \$ 6,274,978

Proxy Voting Guidelines and Proxy Voting Records

The Sub-Advisers are responsible for exercising the voting rights associated with the securities purchased and held by the Funds. A description of the policies and procedures that the Sub-Advisers use in fulfilling this responsibility is available as an appendix to the most recent Statement of Additional Information, which can be obtained without charge by calling toll free 1.800.543.0407 or by visiting the Touchstone website at TouchstoneInvestments.com or on the Securities and Exchange Commission's (the "Commission") website at sec.gov. Information regarding how those proxies were voted during the most recent twelve-month period ended June 30, which will be filed by August 31 of that year, is also available without charge by calling toll free 1.800.543.0407 or on the Commission's website at sec.gov.

Quarterly Portfolio Disclosure

Each Fund's holdings as of the end of the third month of every fiscal quarter will be disclosed on Form N-PORT within 60 days of the end of the fiscal quarter. The complete listing of each Fund's portfolio holdings is available on the Commission's website and will be made available to shareholders upon request by calling 1.800.543.0407.

Advisory and Sub-Advisory Agreement Approval Disclosure

At a meeting held on November 21, 2024, the Board of Trustees (the "Board" or "Trustees") of the Touchstone Variable Series Trust (the "Trust"), and by a separate vote, the Independent Trustees of the Trust, approved the continuance of the Investment Advisory Agreement between the Trust and the Adviser with respect to each Fund of the Trust, and the continuance of the Sub-Advisory Agreement between the Adviser and the Sub-Adviser.

In determining whether to approve the continuation of the Investment Advisory Agreement and the Sub-Advisory Agreements, the Adviser furnished information necessary for a majority of the Independent Trustees to make the determination that the continuance of the Investment Advisory Agreement and each Sub-Advisory Agreement was in the best interests of the respective Funds and their shareholders. The information provided to the Board included: (1) industry data comparing advisory fees and total expense ratios of comparable funds; (2) comparative performance information; (3) the Adviser's and its affiliates' revenues and costs of providing services to the Funds; and (4) information about the Adviser's and Sub-Adviser's personnel. Prior to voting, the Independent Trustees reviewed the proposed continuance of the Investment Advisory Agreement and the Sub-Advisory Agreements with management and experienced independent legal counsel and received materials from such counsel discussing the legal standards for their consideration of the proposed continuation of the Investment Advisory Agreement and each Sub-Advisory Agreement. The Independent Trustees also reviewed the proposed continuation of the Investment Advisory Agreement and each Sub-Advisory Agreement with independent legal counsel in private sessions at which no representatives of management were present.

In approving the Funds' Investment Advisory Agreement, the Board considered various factors, among them: (1) the nature, extent and quality of services provided to the Funds, including the personnel providing such services; (2) the Adviser's compensation and profitability; (3) a comparison of fees and performance with comparable funds; (4) economies of scale; and (5) the terms of the Investment Advisory Agreement. The Board's analysis of these factors is set forth below. The Independent Trustees were advised by independent legal counsel throughout the process.

Nature, Extent and Quality of Adviser Services. The Board considered the level and depth of knowledge of the Adviser, including the professional experience and qualifications of senior personnel. In evaluating the quality of services provided by the Adviser, the Board took into account its familiarity with the Adviser's senior management through Board meetings, discussions and reports during the preceding year. The Board also took into account the Adviser's compliance policies and procedures. The quality of administrative and other services, including the Adviser's role in coordinating the activities of the Funds' other service providers,

Other Items (Unaudited) (Continued)

was also considered. The Board also considered the Adviser's relationship with its affiliates and the resources available to them, as well as any potential conflicts of interest.

The Board discussed the Adviser's effectiveness in monitoring the performance of the Sub-Adviser, an affiliate of the Adviser, and the Adviser's timeliness in responding to performance issues. The Board considered the Adviser's process for monitoring the Sub-Adviser, which includes an examination of both qualitative and quantitative elements of the Sub-Adviser's organization, personnel, procedures, investment discipline, infrastructure and performance. The Board considered that the Adviser conducts periodic due diligence of the Sub-Adviser, during which the Adviser examines a wide variety of factors, such as the financial condition of the Sub-Adviser, the quality of the Sub-Adviser's systems, the effectiveness of the Sub-Adviser's disaster recovery programs, trade allocation and execution procedures, compliance with the Sub-Adviser's policies and procedures, results of regulatory examinations and any other factors that might affect the quality of services that the Sub-Adviser provides to the Funds. The Board noted that the Adviser's monitoring processes also include quarterly reviews of compliance certifications, and that any issues arising from such reviews and the Adviser's due diligence reviews of the Sub-Adviser are reported to the Board.

The Trustees concluded that they were satisfied with the nature, extent and quality of services provided to each Fund by the Adviser under the Investment Advisory Agreement.

Adviser's Compensation and Profitability. The Board took into consideration the financial condition and profitability of the Adviser and its affiliates (including the Sub-Adviser) and the direct and indirect benefits derived by the Adviser and its affiliates from the Adviser's relationship with the Funds. The information considered by the Board included operating profit margin information for the Adviser's business as a whole. The Board noted that the Adviser had waived a portion of advisory fees and administrative fees and/or reimbursed expenses in order to limit each Fund's net operating expenses. The Board also noted that the Adviser pays the Sub-Adviser's sub-advisory fees out of the advisory fees the Adviser receives from the Funds. The Board reviewed the profitability of the Adviser's relationship with the Funds both before and after-tax expenses, and also considered whether the Adviser has the financial wherewithal to continue to provide services to the Funds, noting the ongoing commitment of the Adviser's parent company with respect to providing support and resources as needed. The Board also noted that the Adviser derives benefits to its reputation and other benefits from its association with the Funds. The Board also considered that affiliates of the Adviser may benefit from certain indirect tax benefits, including those relating to dividend received deductions.

The Board recognized that the Adviser should be entitled to earn a reasonable level of profits in exchange for the level of services it provides to each Fund and the entrepreneurial risk that it assumes as Adviser. Based upon their review, the Trustees concluded that the Adviser's and its affiliates' level of profitability, if any, from their relationship with each Fund was reasonable and not excessive.

Expenses and Performance. The Board compared the respective advisory fees and total expense ratios for each of the Funds with various comparative data, including the median and average advisory fees and total expense ratios of each Fund's respective peer group. The Board also considered, among other data, the Funds' respective performance results during the six-month, twelve-month and thirty-six-month periods ended September 30, 2024 and noted that the Board reviews on a quarterly basis detailed information about each Fund's performance results, portfolio composition and investment strategies. The Board also took into account current market conditions and their effect on the Funds' performance.

The Board also considered the effect of each Fund's growth and size on its performance and expenses. The Board noted that the Adviser had waived a portion of the fees and/or reimbursed expenses of the Funds in order to reduce those Funds' respective operating expenses to targeted levels. The Board noted that the sub-advisory fees under the Sub-Advisory Agreement with respect to each Fund were paid by the Adviser out of the advisory fees it receives from the Fund and considered the impact of such sub-advisory fees on the profitability of the Adviser. In reviewing the respective total expense ratios and performance of each of the Funds, the Board also took into account the nature, extent and quality of the services provided to the Funds by the Adviser and its affiliates.

The Board considered, among other data, the specific factors and related conclusions set forth below with respect to each Fund:

Touchstone Balanced Fund. The Fund's advisory fee and total expense ratio (net of applicable expense waivers and reimbursements) were each below the median of its peer group. The Board noted that the Adviser was currently waiving and/or reimbursing a portion of the Fund's fees and/or expenses. The Fund's performance for each of the six-, twelve- and thirty-six-month periods ended September 30, 2024 was in the 2nd quintile of its peer group. Based upon their review, the Trustees concluded that the Fund's overall performance was satisfactory relative to the performance of funds with similar investment objectives and relevant indices, and that the advisory fee was reasonable in light of the services received by the Fund from the Adviser and the other factors considered.

Touchstone Bond Fund. The Fund's advisory fee and total expense ratio (net of applicable expense waivers and reimbursements) were each below the median of its peer group. The Board noted that the Adviser was currently waiving and/or reimbursing a portion of the Fund's fees and/or expenses. The Fund's performance for each of the six-, twelve- and thirty-six-month periods ended September 30, 2024 was in the 3rd quintile of its peer group. Based upon their review, the Trustees concluded that the Fund's

Other Items (Unaudited) (Continued)

overall performance was satisfactory relative to the performance of funds with similar investment objectives and relevant indices, and that the advisory fee was reasonable in light of the services received by the Fund from the Adviser and the other factors considered.

Touchstone Common Stock Fund. The Fund's advisory fee and total expense ratio (net of applicable expense waivers and reimbursements) were below the median and above the median, respectively, of its peer group. The Board noted that the Adviser was currently waiving and/or reimbursing a portion of the Fund's fees and/or expenses. The Fund's performance for each of the twelve- and thirty-six-month periods ended September 30, 2024 was in the 4th quintile of its peer group, while the Fund's performance for the six-month period ended September 30, 2024 was in the 2nd quintile of its peer group. The Board noted management's discussion of the Fund's recent performance. Based upon their review, the Trustees concluded that the Fund's overall performance was satisfactory relative to the performance of funds with similar investment objectives and relevant indices, and that the advisory fee was reasonable in light of the services received by the Fund from the Adviser and the other factors considered.

Touchstone Small Company Fund. The Fund's advisory fee and total expense ratio (net of applicable expense waivers and reimbursements) were each below the median of its peer group. The Board noted that the Adviser was currently waiving and/or reimbursing a portion of the Fund's fees and/or expenses. The Fund's performance for the six-month period ended September 30, 2024 was in the 1st quintile, while the Fund's performance for each of the twelve- and thirty-six-month periods ended September 30, 2024 was in the 2nd quintile. Based upon their review, the Trustees concluded that the Fund's overall performance was satisfactory relative to the performance of funds with similar investment objectives and relevant indices, and that the advisory fee was reasonable in light of the services received by the Fund from the Adviser and the other factors considered.

Economies of Scale. The Board considered the effect of each Fund's current size and potential growth on its performance and expenses. The Board took into account management's discussion of the Funds' advisory fee structure. The Board considered the effective advisory fees under the Investment Advisory Agreement as a percentage of assets at different asset levels and possible economies of scale that might be realized if the assets of each Fund increase. The Board noted that the advisory fee schedules for all but one of the Funds contain breakpoints that would reduce the advisory fee rate on assets above specified levels as the respective Fund's assets increased and considered the appropriateness of adding breakpoints with respect to the one Fund that currently did not have such breakpoints in its advisory fee schedule. The Board determined that adding breakpoints at specified levels to the advisory fee schedule of the one Fund that currently did not have such breakpoints was not appropriate at that time. The Board also noted that if a Fund's assets increase over time, the Fund might realize other economies of scale if assets increase proportionally more than certain other expenses. The Board also considered the fact that, under the Investment Advisory Agreement, the advisory fee payable to the Adviser by a Fund was reduced by the total sub-advisory fee paid by the Adviser to the Fund's Sub-Adviser.

Conclusion. In considering the renewal of the Funds' Investment Advisory Agreement, the Board, including the Independent Trustees, did not identify any single factor as controlling, and each Trustee may have attributed different weights to the various factors. The Trustees evaluated all information available to them on a Fund-by-Fund basis, and their determinations were made separately with respect to each Fund. The Board reached the following conclusions regarding the Funds' Investment Advisory Agreement with the Adviser, among others: (a) the Adviser demonstrated that it possesses the capability and resources to perform the duties required of it under the Investment Advisory Agreement; (b) the Adviser maintains an appropriate compliance program; (c) the overall performance of each Fund is satisfactory relative to the performance of funds with similar investment objectives and relevant indices; and (d) each Fund's advisory fee is reasonable in light of the services received by the Fund from the Adviser and the other factors considered. Based on their conclusions, the Trustees determined with respect to each Fund that continuation of the Investment Advisory Agreement was in the best interests of the Fund and its shareholders.

In approving the applicable Funds' respective Sub-Advisory Agreements, the Board considered various factors with respect to each Fund and the applicable Sub-Advisory Agreement, among them: (1) the nature, extent and quality of services provided to the Fund, including the personnel providing such services; (2) the Sub-Adviser's compensation; (3) a comparison of the sub-advisory fee and performance with comparable funds; and (4) the terms of the Sub-Advisory Agreement. The Board's analysis of these factors is set forth below. The Independent Trustees were advised by independent legal counsel throughout the process.

Nature, Extent and Quality of Services Provided; Investment Personnel. The Board considered information provided by the Adviser regarding the services provided by the Sub-Adviser, including information presented periodically throughout the previous year. The Board noted the affiliation of the Sub-Adviser with the Adviser, noting any potential conflicts of interest. The Board also noted that, on a periodic basis, the Board meets with portfolio managers of the Sub-Adviser to discuss its respective performance and investment processes and strategies. The Board considered the Sub-Adviser's level of knowledge and investment style. The Board reviewed the experience and credentials of the applicable investment personnel who are responsible for managing the investment of portfolio securities with respect to the Funds. The Board also noted the Sub-Adviser's brokerage practices.

Sub-Adviser's Compensation, Profitability and Economies of Scale. The Board also took into consideration the financial condition of the Sub-Adviser and any indirect benefits derived by the Sub-Adviser and its affiliates from the Sub-Adviser's relationship with the Funds. In considering the profitability to the Sub-Adviser of its relationship with the Funds, the Board noted the undertaking of the

Other Items (Unaudited) (Continued)

Adviser to maintain expense limitations for the Funds and also noted that the sub-advisory fees under the Sub-Advisory Agreements were paid by the Adviser out of the advisory fees that it receives under the Investment Advisory Agreement. As a consequence, the profitability to the Sub-Adviser of its relationship with a Fund was not a substantial factor in the Board's deliberations. For similar reasons, the Board did not consider the potential economies of scale in the Sub-Adviser's management of the applicable Fund to be a substantial factor in its consideration, although the Board noted that the sub-advisory fee schedule for all but one of the Funds contained breakpoints that would reduce the sub-advisory fee rate on assets above specified levels as the applicable Fund's assets increased.

Sub-Advisory Fees and Fund Performance. The Board considered that each Fund pays an advisory fee to the Adviser and that the Adviser pays the sub-advisory fee to the Sub-Adviser out of the advisory fee it receives from the respective Fund. The Board also compared the sub-advisory fees paid by the Adviser to fees charged by the Sub-Adviser to manage comparable institutional separate accounts, as applicable. The Board considered the amount retained by the Adviser and the sub-advisory fee paid to the Sub-Adviser with respect to the various services provided by the Adviser and the Sub-Adviser. The Board reviewed the sub-advisory fee for each Fund in relation to various comparative data, including the median and average sub-advisory fees of each Fund's peer group, and considered the following information:

Touchstone Balanced Fund. The Fund's sub-advisory fee was below the median of its peer group. Based upon their review, the Trustees concluded that the sub-advisory fee was reasonable in light of the services received by the Fund from the Sub-Adviser and the other factors considered.

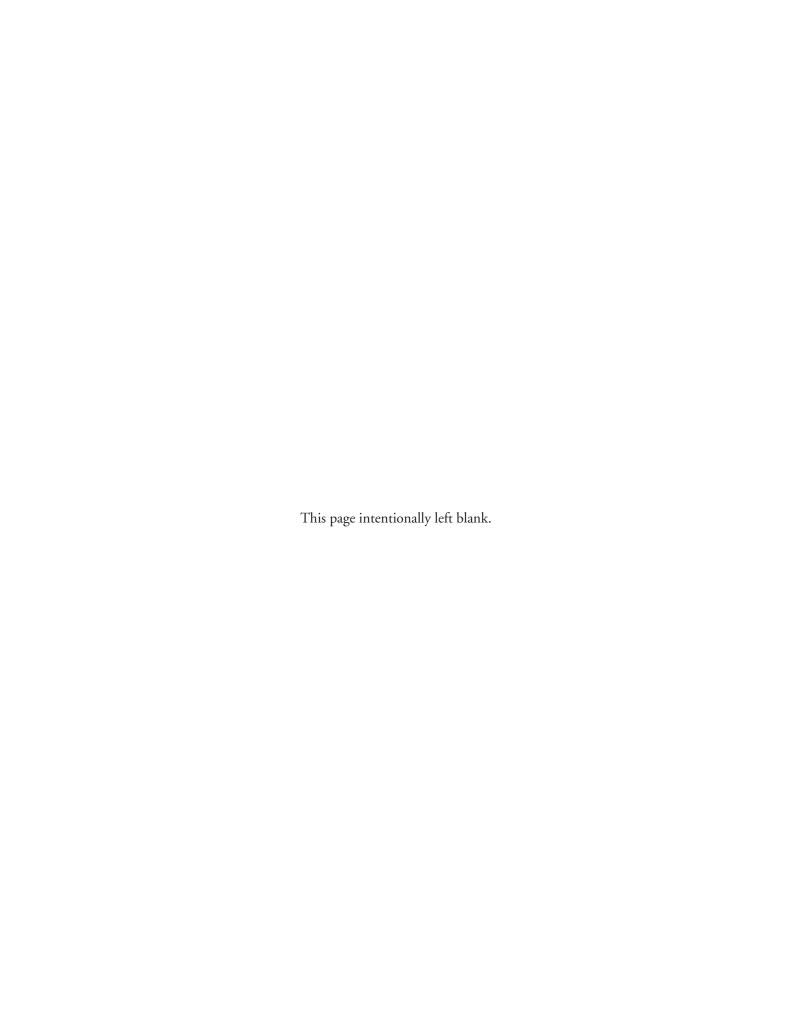

<u>Touchstone Bond Fund</u>. The Fund's sub-advisory fee was above the median of its peer group. Based upon their review, the Trustees concluded that the sub-advisory fee was reasonable in light of the services received by the Fund from the Sub-Adviser and the other factors considered.

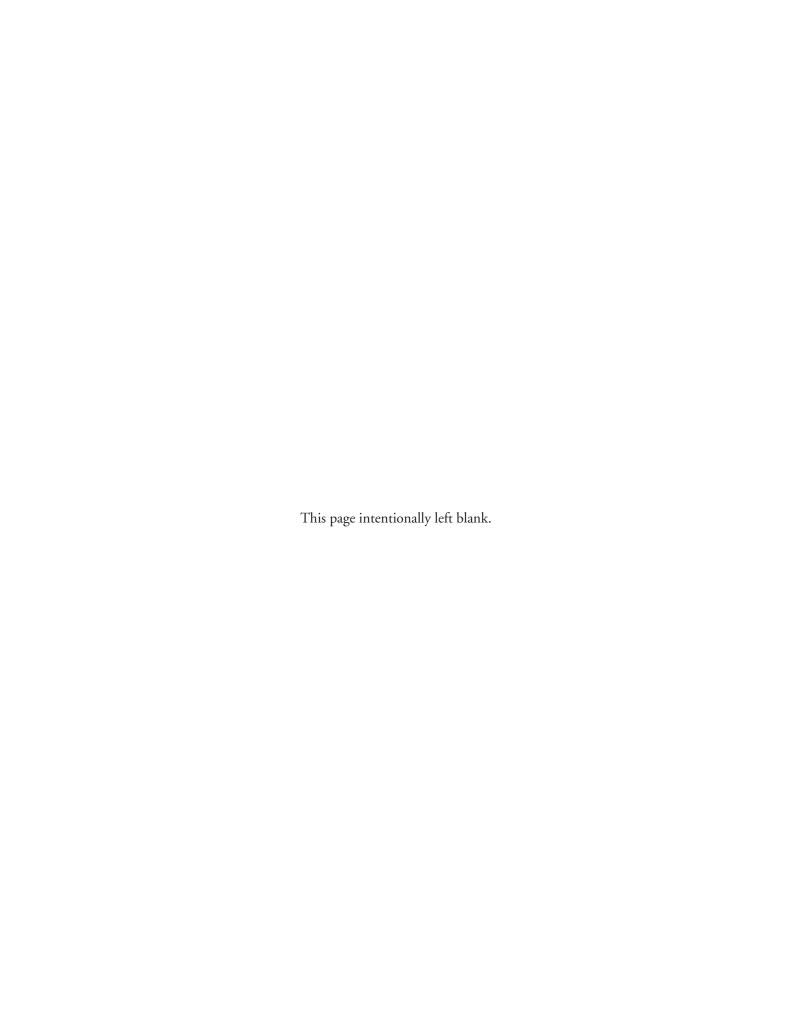

<u>Touchstone Common Stock Fund</u>. The Fund's sub-advisory fee was above the median of its peer group. Based upon their review, the Trustees concluded that the sub-advisory fee was reasonable in light of the services received by the Fund from the Sub-Adviser and the other factors considered.

Touchstone Small Company Fund. The Fund's sub-advisory fee was below the median of its peer group. Based upon their review, the Trustees concluded that the sub-advisory fee was reasonable in light of the services received by the Fund from the Sub-Adviser and the other factors considered.

As noted above, the Board considered each Fund's performance during the six-month, twelve-month and thirty-six-month periods ended September 30, 2024 as compared to each Fund's peer group and noted that the Board reviews on a quarterly basis detailed information about each Fund's performance results, portfolio composition and investment strategies. The Board noted the Adviser's expertise and resources in monitoring the performance, investment style and risk-adjusted performance of the Sub-Adviser. The Board was mindful of the Adviser's ongoing monitoring of the Sub-Adviser's performance and the measures undertaken by the Adviser to address any underperformance.

Conclusion. In considering the renewal of the Sub-Advisory Agreement with respect to each applicable Fund, the Board, including the Independent Trustees, did not identify any single factor as controlling, and each Trustee may have attributed different weights to the various factors. The Board reached the following conclusions regarding each Sub-Advisory Agreement, among others: (a) the Sub-Adviser is qualified to manage each Fund's assets in accordance with the Fund's investment goals and policies; (b) the Sub-Adviser maintains an appropriate compliance program; (c) the overall performance of each Fund is satisfactory relative to the performance of funds with similar investment objectives and relevant indices; (d) each Fund's sub-advisory fee is reasonable in light of the services received by the Fund from the Sub-Adviser and the other factors considered; and (e) the Sub-Adviser's investment strategies are appropriate for pursuing the investment goals of each Fund. Based on its conclusions, the Board determined that approval of the Sub-Advisory Agreement with respect to each applicable Fund was in the best interests of the Fund and its shareholders.

PRIVACY PROTECTION POLICY

We Respect Your Privacy

Thank you for your decision to invest with us. Touchstone and its affiliates have always placed a high value on the trust and confidence our clients place in us. We believe that confidence must be earned and validated through time. In today's world, when technology allows the sharing of information at light speeds, trust must be reinforced by our sincere pledge to take the steps necessary to ensure that the information you share with us is treated with respect and confidentiality.

Our Pledge to Our Clients

- We collect only the information we need to service your account and administer our business.
- We are committed to keeping your information confidential and we place strict limits and controls on the use and sharing of your information.
- We make every effort to ensure the accuracy of your information.

We Collect the Following Nonpublic Personal Information About You:

- Information we receive from you on or in applications or other forms, correspondence, or conversations, including, but not limited to, your name, address, phone number, social security number, assets, income and date of birth; and
- Information about your transactions with us, our affiliates, or others, including, but not limited to, your account number and balance, payment history, parties to transactions, cost basis information, and other financial information.

Categories of Information We Disclose and Parties to Whom We Disclose

We do not disclose any nonpublic personal information about our current or former clients to nonaffiliated third parties, except as required or permitted by law.

We Place Strict Limits and Controls on the Use and Sharing of Your Information

- We restrict access to nonpublic personal information about you to authorized employees who need the information to administer your business.
- We maintain physical, electronic and procedural safeguards that comply with federal standards to protect this information.
- We do not disclose any nonpublic personal information about our current or former clients to anyone, except as required or permitted by law or as described in this document.
- We will not sell your personal information to anyone.

We May Provide Information to Service Your Account

Sometimes it is necessary to provide information about you to various companies such as transfer agents, custodians and broker-dealers to facilitate the servicing of your account. These organizations have a legitimate business need to see some of your personal information in order for us to provide service to you. We may disclose to these various companies the information that we collect as described above. We require that these companies, including our own subsidiaries and affiliates, strictly maintain the confidentiality of this information and abide by all applicable laws. We do not permit these companies to sell the information for their own purposes, and we never sell our customer information.

This policy is applicable to the following affiliated companies: Touchstone Funds Group Trust, Touchstone Strategic Trust, Touchstone Variable Series Trust and Touchstone ETF Trust.

The Privacy Protection Policy is not part of the Annual Report.
